### PROFILE

Passionate about current technology and business field, I am dedicating myself to the world of entrepreneurship, aiming to offer services related to digital trends such as software development, artificial intelligence, and more. I am confident in achieving my goals and ambitions. I would also describe myself as a very ambitious person who wants to create something great in the future.

### STUDYING EXPERIENCE

#### SECONDARY EDUCATION (ESO) 2018-2022

studied at María Inmaculada (Albacete)

- Acquired basic concepts about economy, sciences, such as maths or physics
- Started my journey of acquiring knowledge of a variety of languages

#### HIGHER SECONDARY EDUCATION 2022-2024

studied at Colegio C.E.D.E.S

- In this stage of my academic career, I chose to study technological education based in microeconomics and business, I ended this facet of my career with a 7,3 out of 10 in my final mark. Then, during this phase, I faced the EVAU challenge, and I passed it with a 10 out of 14.

#### UNIVERSITY STUDIES 2024- now

studied at Universidad Francisco de Vitoria

- I'm very motivated when I started my university studies, business analytics and informatics, I think that those careers are compatible with my goals and ambitions.
